House #556, Street #2, Block D, Media Town, Islamabad, Pakistan

EDUCATION

Bachelor of Science (BSc) in Physics
COMSATS University, Islamabad
Class of 2024
CGPA: 2.56 / 4.00 (Equivalent to 69.5%)
Diploma in Quranic Sciences
(Taleem-ul-Quran TQI, Batch 30)
Al-Huda International Institute for Women, Islamabad
Completed: 2023

Marks: 900 / 1000 (89.9%)
F.Sc. Pre-Engineering
Punjab College, Rawalpindi
Completed: 2020

Marks: 787 / 1100 (71.5%)
Matriculation – Science Group
Azeem Public School, Kahuta
Completed: 2018
Marks: 918 / 1100 (83.4%)

SKILLS

Research & Technical Interests

Quantum Systems & Particle Physics
Electromagnetic Field Applications
Thermodynamics & Statistical Mechanics
Renewable Energy Systems
Space Sciences and Astrophysics

Scientific & Technical Skills

Scientific computing with Mathematica
Microsoft Excel for physics lab data and reports
Basic experience with simulations and modeling
Academic writing and scientific communication
Basic knowledge of Python (recommended for enhancement)

KEY COMPETENCIES

Digital & Academic Tools, Microsoft Office Suite (Word, Excel, PowerPoint)
Mathematica, Online teaching platforms: Zoom, Google Meet
Soft Skills ,Concept-Based Teaching & Curriculum Planning
Time Management & Self-Motivation
Clear Communication & Active Listening
Adaptability to Modern Teaching and Research Environments

LANGUAGE

English – Professional Proficiency
Urdu – Native Speaker

PROFESSIONAL PROFILE

Analytical and self-driven Physics graduate with a keen interest in both theoretical research and applied physics, particularly in domains such as quantum mechanics, electromagnetism, and cosmology. Eager to contribute to interdisciplinary research, I am especially passionate about how foundational physics principles enable cutting-edge innovations in areas like nanotechnology, quantum computing, renewable energy, and space exploration.

I possess strong skills in problem-solving, data interpretation, and scientific computing, along with hands-on experience in online and classroom teaching. Open to roles in academic research labs, technical R&D teams, or scientific institutions, I am committed to continuous learning and contributing to technological advancement through methodical inquiry and collaboration.

WORK EXPERIENCE

Freelance Mathematics Instructor (O-Levels)

Self-employed | Remote via Fiverr & Online Platforms

Nov 2023 – Dec 2023

Delivered customized, interactive online mathematics lessons for O-Level students.

Developed engaging digital teaching materials using PowerPoint and screen annotation tools.

Received positive feedback from students and parents for conceptual clarity and punctuality.

Gained valuable experience in independent time management and virtual education systems.

Tafseer and Islamic Studies Teacher

Al-Huda Academy (PWD), Islamabad

Jan 2025 – Present

Conducting in-depth lectures on Quranic Tafseer to female students in a structured academic setting.

Facilitating meaningful discussions and ensuring accurate interpretation of Islamic texts.

Supporting student learning through mentoring and supplementary material preparation.

Promoting spiritual growth and community bonding through religious education.

ACADEMIC PROJECT WORK

Final Year Project – Investigating the Behavior of Electromagnetic Waves in Conductive Media

Modeled wave propagation using basic simulation techniques.

Analyzed attenuation and reflection phenomena at different frequencies.

Prepared technical report and presented findings to the department panel.
